The second part for your Christian service project is to write a one page journal entry addressing the following questions.

What did you do for your project?

Who benefitted fro your service and in what way did they benefit?

What did you learn from your service?

What went well?

What would you change next time?

How much effort did you put into your service?

Your journal may be handwritten, but typed is preferred. While spelling and mechanics won't be specifically graded, if your journal entry is difficult to read, that will lower your grade.
